REPORT ON NATIONAL TEACHERS DAY-2024

The IQAC of the Govt. Degree College Uri celebrated the National Teachers Day on 05th September, 2024 in the college auditorium. Earlier, Prof. (Dr) Zahoor Ahmad worthy Principal of the college welcomed the audiences and said that We celebrate and express our gratitude to our teachers for their dedication, guidance, and support. Their wisdom and encouragement help us to grow and succeed, and today, we honor their invaluable contributions to our education and personal development. He said that September 5th, marking the birth anniversary of Dr. Sarvepalli Radhakrishnan, a great scholar, philosopher, and the second President of India. Today, we remember his legacy and the essential role that teachers play in our lives. On Teachers' Day, we come together to celebrate and express our gratitude to our teachers, whose dedication, guidance, and support impact our lives. This special day is an opportunity to honor their efforts in shaping our futures and nurturing our growth. Teachers not only impart knowledge but also inspire us to achieve our best, encouraging us through challenges and celebrating our successes.

Dr. Shamas Ud Din Ahangar, HOD Education and coordinator IQAC remarked that as we pay tribute to their invaluable contributions; let us remember the significant role they play in our education and personal development. For more inspiration, explore both short and long speeches dedicated to honoring teachers on this special occasion for students. Teachers' Day is celebrated on September 5th, marking the birth anniversary of Dr. Sarvepalli Radhakrishnan, a great scholar, philosopher, and the second President of India. Teachers Day is a special day to honor and appreciate our teachers for their dedication and contributions to our education. It is a day to recognize the vital role teachers play in shaping our lives and building a better future. Teachers inspire us to learn, grow, and achieve our goals. They provide guidance, support, and encouragement throughout our educational journey. Teachers are the pillars of our society, nurturing the minds of the next generation. They instill in us the values of knowledge, wisdom, and compassion. Teachers Day is a reminder of the importance of education and the positive impact it has on our lives. It is an opportunity to express our gratitude and appreciation for our teachers. By celebrating Teachers Day, we honor the profession of teaching and the individuals who dedicate their lives to educating others. Let us strive to be lifelong learners and continue to appreciate the invaluable role of teachers in our lives.

REPORT ON NATIONAL SPACE DAY-2024

The IQAC Govt. Degree College Uri in collaboration with Department of Chemistry celebrated the **National Space Day-2024** on 23-08-2024 at 11:00 AM in the college auditorium. The programme was attended by 50 participants. On this occasion the worthy Principal of the college Prof. (Dr) Zahoor Ahmad welcomed the participants and said, to celebrate the first National Space Day on August 23, 2024, the Government of India is launching a month-long campaign to highlight the remarkable achievements of India's space missions and to inspire the nation's youth. He said that National Space Day is dedicated to inspire future generations by generating their interests in space science and technology and honor the contribution of ISRO to space research. He also admitted that space science helps to understand the evolution of the universe and drives technological innovations. It also plays a crucial role in protecting our planet monitoring space weather also. He added that space exploration requires collaboration among countries fostering international partnership thus bringing together scientists and engineers around the world promoting peace and shared goals.

Dr. Shamas Ud Din Ahangar HOD Education and Coordinator IQAC presented the backdrop of the programme and said that India's first National Space Day is being celebrated today on August 23, 2024, to honor the success of the Chandrayaan-3 mission. On August 23, 2023, the Indian Space Research Organisation (ISRO) successfully landed the Chandrayaan-3's Vikram Lander and Pragyaan Rover on the moon, making India the fourth country to land on the moon and the first to land near its southern polar region. Hon'ble Prime Minister Narendra Modi declared August 23 as National Space Day to recognize this achievement. The theme of 2024 National Space day is: "Touching Lives while Touching the Moon: India's Space Saga". Celebrations will highlight India's space achievements, their benefits to society, and opportunities for people to engage with the Indian space program. If we have a thorough look on Key Highlights of Hon'ble Prime Minister's Speech: says achievement of Chandrayaan-3 as a significant scientific milestone that demonstrates India's prowess in space exploration. He also announced that the point of Chandrayaan-3's landing would be known as 'Shiv Shakti.' He acknowledged the contribution of women scientists and referred to the Chandrayaan-2 landing site as 'Tiranga,' highlighting its significance in inspiring efforts and overcoming failures.

Dr. Bashir Ahmad Dar HOD Chemistry in his power point presentation supplemented lecture said that Efforts to develop an orbital launch vehicle began after mastering sounding rocket technology. The concept was to develop a launcher capable of providing sufficient velocity for a mass of 35 kg (77 lb) to enter low Earth orbit. It took 7 years for ISRO to develop Satellite Launch Vehicle capable of putting 40 kg (88 lb) into a 400-kilometre orbit. The SLV's first launch in 1979 carried a Rohini technology payload but could not inject the satellite into its desired orbit. Polar Satellite Launch Vehicle (PSLV). The SLV-3 later had two more launches before discontinuation in 1983 ISRO's Liquid Propulsion Systems Centre (LPSC) was set up in 1985 and started working on a more powerful engine, Vikas, based upon the French Viking .

The arrival of the PSLV in 1990s was a major boost for the Indian space programme. With the exception of its first flight in 1994 and two partial failures later, the PSLV had a streak of more than 50 successful flights. Geosynchronous Satellite Launch Vehicle (GSLV) was going on. In 2003, Prime Minister Atal Bihari Vajpayee urged scientists to develop technologies to land humans on the Moon and programmes for lunar, planetary and crewed missions were started. ISRO launched Chandrayaan-1 in 2008, purportedly the first probe to verify the presence of water on the Moon, and the Mars Orbiter Mission in 2013, the first Asian spacecraft to enter Martian orbit, making India the first country to succeed at this on its first

attempt. Subsequently, the cryogenic upper stage for GSLV rocket became operational, making India the sixth country to have full launch capabilities. A new heavier-lift launcher LVM3 was introduced in 2014 for heavier satellites and future human space missions. On 23 August 2023, India achieved its first soft landing on an extraterrestrial body and became the first nation to successfully land a spacecraft near the lunar South Pole with ISRO's Chandrayaan-3, the third Moon mission.¹ Indian moon mission, Chandrayaan-3 saw the successful soft landing of its *Vikram* lander near the little-explored region of the Moon in a world's first for any space programme.

Finally, formal vote of thanks was presented by Dr. Naushad Ahmad Wani HOD Psychology who thanked the programme organized committee on behalf of the college administration.

REPORT ON INTERNATIONAL MOTHER LANGUAGE DAY-2025

The IQAC in collaboration with Department of Kashmiri Govt. Degree College Uri celebrated the International Mother Language Day-2025 on 21-02-2025 at 11:30 AM in Auditorium of the college. The programme was attended by the students and staff of the college. Worthy Principal of the college Prof (Dr) Zahoor Ahmad welcomed the participants and spoke about the importance of the Mother Tongue. He said that international Mother Language Day forms the foundation block in communication. It is important to respect, acknowledge and understand each other's language to effectively communicate. The world is a plethora of languages, cultures and traditions. Each language also varies in dialects. With every few kilometers, the dialects change, and the language starts to differ. While it can seem confusing, such is the beauty of diversity in the world, and finding ways to collaborate and connect with each other. India stands as an emblem of linguistic and cultural diversity for the world with the varieties of dialects spoken across the country.

Dr. Imtiyaz Ahmad rather speaker of the event said that as February 21st, 2025 nears, linguists worldwide eagerly await International Mother Language Day seizing the opportunity to renew appreciation of humanity's rich linguistic diversity. This symbolic date presents a chance to set ambitious goals for preserving endangered native tongues, recalibrating education to promote multilingualism, and kindling optimism about communities sustaining their distinctive linguistic heritage. The early arrival of 2024's Mother Language Day reignites hopes across activists and scholars to catalyze a vibrant linguistic world, while envisioning a future where all humanity's myriad speech forms thrive unencumbered. He figured that there are nearly eight thousand languages spoken across the world, where India stands at first using 780 languages.

The programme was anchored by Dr. S. D. Ahangar Coordinator IQAC and Head Department of Education. The vote of thanks was presented by Dr. Navshad Ahmad Wani HOD Psychology.

REPORT ON NATIONAL WATER DAY-2024

The IQAC of the Govt. Degree College Uri celebrated the National Water Day on -22nd March, 2024 in the college auditorium. At the outset Dr. Shamas Ud Din Ahangar, HOD Education welcomed the audiences and presented the backdrop of the day. He said That World Water Day, celebrated on March 22 every year, is an occasion to realise the importance of freshwater, especially this year amid the ongoing Bengaluru water crisis. The tech hub is facing an acute water shortage due to failed monsoons and drying groundwater resources.

In 1992, the United Nations Conference on Environment and Development in Rio de Janeiro saw the first formal proposal of World Water Day under Agenda 21. The United Nations General Assembly adopted a resolution in December 1992 by which March 22 was declared World Water Day.

The United Nations (UN) marks this day to advocate for the sustainable management of freshwater resources. On this day, the UN's flagship report on water and sanitation is launched every year.

The theme for this year is 'Water for prosperity and peace'. Thus, the 2024 edition of the UN's flagship World Water Development Report (WWDR) report will explore this theme and be released today. The theme changes every year, but the central focus remains on topics relevant to clean water, sanitation and hygiene (WASH), which is in line with the targets of Sustainable Development Goal 6. The proceedings of the programme were conducted by Prof. Naushad Ahmad and presented vote of thanks.

REPORT ON VOTER EDUCATION WORKSHOP

The IQAC of the Govt. Degree College Uri in collaboration with NSS Unit of the college organized Voter Education Workshop under SVEEP on 7th September, 2024 in the Computer Lab of the college with 30 Participants including faculty members. At the outset Dr. Naushad Ahmad Wani HOD Psychology who also anchored the programme presented the backdrop of the programme.

Dr. Shamas Ud Din Ahangar HOD Education and coordinator IQAC was the Resource Person of the workshop, gave a detailed description of the workshop and said that SVEEP is the flagship program of the Election Commission of India for voter education, spreading voter awareness and promoting voter literacy in India. It is a multi-intervention programme that reaches out through different modes and media to educate citizens, electors, and voters about the electoral process in order to increase their awareness and promote their informed participation. SVEEP is designed according to the socio-economic, cultural, and demographic profile of the state as well as history of electoral participation in previous rounds of elections. The Commission produces several voter awareness materials and disseminates the same through various mediums/platforms of communication i.e Print Media, Electronic Media, Social Media etc. He also informed that General Voters need to fill Form 6 ([Link to online form](#)). This is only for the Registration of new voters. NRI Voter need to fill form 6A ([Link to online form](#)). For Deletion or Objection in electoral roll fill form 7 ([Link to online form](#)). Please fill Form 8 ([Link to online form](#)) for shifting of Residence/Correction of Entries in Existing Electoral Roll/Replacement of EPIC / Marking of PwD. People can also call 1950 for any help.

REPORT ON WORLD NATURE CONSERVATION DAY-2024

The IQAC in collaboration with the Department of Education, Govt. Degree College Uri celebrated the World Nature Conservation Day-2024 on 28-07-2024 at 10:30 AM in the college auditorium. The programme was attended by student participants and faculty. Dr. Zahoor Ahmad welcomed the audiences and remarked that World Nature Conservation Day, observed on July 28 every year, serves as a timely reminder of the importance of preserving and protecting our planet's natural resources and biodiversity. It's a day to raise awareness about environmental issues and inspire collective action towards sustainable living. This day is crucial because human actions are harming the environment and using up nature's resources too quickly. Mother Earth is our home, and it is our utmost responsibility to preserve and look after it. On this day, we have curated a list of inspiring quotes and messages that can be shared to encourage others to join the global efforts in conserving nature and creating a better world for future generations. He also said that the slogans on Environment Day are: Go green, breathe clean, Stop polluting the environment, Think before you trash it, A little effort towards saving the environment is better than no effort, If you cannot reuse, refuse, Let us nurture nature to have a nurturing future, Better Environment, Better Tomorrow.

Coordinator IQAC & HOD Education Dr. Shamas Ud Din Ahangar believed that this day serves as a reminder of the crucial importance of conserving the planet's natural resources and recognising the efforts and successes of those who save nature every day. World Nature Conservation Day is an excellent opportunity to celebrate and contribute to the preservation of our natural world. Here are some meaningful ways to celebrate: **Plant a Tree:** Trees play a crucial role in combating climate change and providing habitat for wildlife. Organize or participate in a tree-planting event in your community or plant a tree in your garden to mark the occasion. **Clean Up the Environment:** Organize or participate in a beach cleanup, river clean-up, or neighborhood cleanup. Removing litter from natural areas helps protect wildlife and prevents pollution. **Educate and Advocate:** Use the day to raise awareness about environmental issues. Share information on social media, participate in community discussions, or organize an educational event to inform others about the importance of conservation. **Support Conservation Organizations:** Contribute to conservation efforts by donating to reputable organizations that focus on protecting wildlife, forests, oceans, or other critical habitats. **Reduce, Reuse, Recycle:** Embrace the three Rs of environmental conservation in your daily life. Reduce your waste, reuse items whenever possible, and recycle materials appropriately. **Conserve Water:** Be mindful of your water usage. Fix leaky faucets, take shorter showers, and collect rainwater for outdoor plants. Remember, every effort, no matter how small, contributes to the greater cause of nature conservation. By celebrating World Nature Conservation Day, you are not only appreciating the beauty of our planet but also taking steps to ensure a healthier and more sustainable future for all living beings.

REPORT ON INTERNATIONAL YOGA DAY-2024

The IQAC Govt. Degree College Uri in collaboration with Physical Education Department organized International Yoga Day-2024 on 21-06-2024 at 11:00 AM in the college premises. The programme was attended by 55 staff and student participants. Caretaker Principal of the college Dr. Shamas Ud Din Ahangar spoke about the importance of the day. He said that Yoga is an ancient physical, mental and spiritual practice that originated in India. The word 'yoga' derives from Sanskrit and means to join or to unite, symbolizing the union of body and consciousness. Today it is practiced in various forms around the world and continues to grow in popularity. Recognizing its universal appeal, on 11 December 2014, the United Nations proclaimed 21 June as the International Day of Yoga by resolution 69/131. The International Day of Yoga aims to raise awareness worldwide of the many benefits of practicing yoga. The draft resolution establishing the International Day of Yoga was proposed by India and endorsed by a record 175 member states. The proposal was first introduced by Honble Prime Minister Narendra Modi in his address during the opening of the 69th session of the General Assembly, in which he said: "Yoga is an invaluable gift from our ancient tradition. Yoga embodies unity of mind and body, thought and action a holistic approach [that] is valuable to our health and our well-being. Yoga is not just about exercise; it is a way to discover the sense of oneness with you, the world and the nature." The resolution notes "the importance of individuals and populations making healthier choices and following lifestyle patterns that foster good health." In this regard, the World Health Organization has also urged its member states to help their citizens reduce physical inactivity, which is among the top ten leading causes of death worldwide, and a key risk factor for non-communicable diseases, such as cardiovascular diseases, cancer and diabetes.

In charge Physical Education, Dr. Wasim Illahi earlier welcomed the participants and presented significant benefits of the event. Theme for 2024- "Yoga for self and society" The purpose of Yoga Mahotsav 2024 is to propel Yoga into a widespread movement with focus on women well-being and promoting global health and peace. The Ministry has actively supported studies on various conditions affecting women, including PCOS/PCOD, stress management, and the like, to focus on women's health irrespective of their age or condition, promoting women empowerment through evidence-based research. Yoga is a comprehensive instrument for empowering women, encompassing their physical, mental, emotional, social, and spiritual well-being. Empowered women take on roles as leaders, educators, and advocates for change, promoting inclusivity, diversity, and empowerment across society. Later yoga expert activities were performed by the participants in the event.

REPORT ON WORLD POPULATION DAY-2024

The IQAC in collaboration with the Department of Education, Govt. Degree College Uri celebrated the World Population Day-2024 on 11-07-2024 at 11:00 AM in the college auditorium. The programme was attended by a good number of student participants and faculty. Coordinator IQAC Dr. Shamas Ud Din Ahangar welcomed the participants and spoke about the backdrop of the program. He said that the theme of the year is Leave no one behind, count everyone. World Population Day 2024 is celebrated and observed all over the world as an awareness program. Every year on July 11, it is observed to increase public awareness of topics such as the effects of population growth, gender equality, the value of family planning, poverty, maternal health, and human rights. World Population Day is celebrated to raise awareness of population-related concerns, such as the world's rapidly expanding population, and to encourage action to address them. The main goal of this day is to highlight the importance of population issues more generally. We cannot ignore the effects of the COVID-19 pandemic on society, the economy, and communities worldwide. Not everyone is equally affected, though. For example, women who work in front-line positions are disproportionately exposed to the coronavirus.

Dr. G. D. Qureshi Lecturer in Education said, World Population Day serves as a reminder to consider the present population and population-related issues that have an impact on how people live today. However, the emphasis is more on what needs to be done to decrease population growth in the future. The most crucial thing to consider is how the world will be for your children, grandchildren, great-grandchildren, etc. if the population growth rate is maintained. Population issues disproportionately affect people in developing countries. Utilize World Population Day to do some study into population concerns because there is a tonne of material available. The United Nations Populations Fund, which is the principal UN organization in charge of addressing population issues, is a fantastic place to start. There are many resources available, so pick a couple that genuinely interests you and research their issues and solutions in-depth. There are countless outstanding nonprofits and NGOs working tirelessly to address population challenges, particularly in poor countries. They include groups that assist individuals in lifting themselves out of poverty, teach women about contraception and family planning, and assist displaced people.
